

TECH TOOLS, A DEVELOPMENTAL TECHNOLOGY LIBRARY CATALOG

A program of United Cerebral Palsy of Nebraska

Host Site:
GO Physical Therapy
Children's Rehab Center – Grand Island

Introduction:

Play is an essential component of growing up. As children engage in play, they practice and master specific physical, psycho-social, emotional, and creative skills necessary for understanding and interacting with the world around them.

The **Tech Tools, A Developmental Technology Library** allows individuals of all ages and abilities to explore the world of play and participate more independently within their environment, at home, or at school.

Tech Tools is a unique program offered through [United Cerebral Palsy of Nebraska](#). The lending library consists of sophisticated augmentative technology and devices for individuals with a special need. These adapted toys and devices are loaned to families, professionals and other care providers at no cost.

In this catalog you will find a description of each item in the library located in GO Physical Therapy - Children's Rehab Center. Listed below are categories and generalized types of items:

Adapted Toys (Switch Required)	Leisure/Recreation
Adapted Toys (Non-Switch)	Sensory
Adapted Supports	Switches
Communication Devices	Therapeutic Listening System

FAQ: Why are these libraries needed?

Market prices of adapted toys and devices can be 3-5x that of normal toys, placing additional financial burden on families/guardians already navigating inordinate care-related costs. Given children's quickly changing interests and these high costs, people with disabilities tend not to have adequate access to them for play, inclusion and independence. Items are available on loan so they can be tested before a costly purchase.

Adapted Toys (Switch Required)

UCP 00607	Crawling Crab Switch Toy 	This cute little crab is made of soft fabric and activates any device. Plays music and vibrates.
UCP 00605	Little Einstein's Classical Friend Leo 	Talks and sings to 2 classical songs when the user squeeze's Leo's belly or uses a capability switch.
UCP 02758	Singing Fun Mickey 	Press Mickey's hand or use your external capability switch & Mickey's shirt lights up & he sings the Wiggle Giggle song! Comes with a stand for easy play.
UCP 02759	Paw Patrol Talking Chase 	Police dog & super spy Chase is here to help save the day. This cute plush has been adapted to work with any capability switch. Just press the switch & Chase wags his tail and says one of more than 20 phrases & sounds. Chase sports his signature police hat, Also works without a switch by pressing on his backpack.
UCP 02760	Jam & Count Panda 	When the user presses the 10 colorful guitar buttons or spin the roller ball, Panda's microphone lights up to sync to the beat with songs, sounds & phrases about counting & more. Can be used with a capability switch, encouraging cause-and-effect learning, sensory engagement & early developmental skills.
UCP 00200	Switch Adapted Clip-On Fan 	Press to feel the breeze and release switch to stop it. Great for teaching cause-effect, providing sensory input, and cooling off on a hot day.

308-398-5170

UCP 00526	Teddy Ruxpin 	Teddy instills a love of reading and adventure, and builds vocabulary and comprehension skills.
UCP 00322	Mr. Roboto 	A musical tune plays when the ears are pressed; six bright LED's turn on simultaneously when the eyes are pressed; a spinning lighted mirror spins inside the head & vibration is turned on when the nose is pressed; and, a buzzer goes on when the mouth is pressed.
UCP 00596	Adapted Mirror 	When you pick up the mirror the lights turn on while the unit vibrates. This encourages the user to visually attend to him/herself and increases bi-lateral hand usage. The level of vibration is adjustable.
UCP 00203	Magical Light Show 	Press the yellow button and the user will feel vibrations under their hand while the light show begins. Provides great tactile awareness.
UCP 01255 UCP 01550	Kissing Critters 	These loveable little critters need the user's help to find each other! When their noses are lightly touched together the user is rewarded with lights, music and vibration. A fun way to develop hand-eye coordination.
UCP 01528 (Green) UCP 01529 (Red) UCP 01530 (Orange)	Automoblox 	Made of European Beech Wood, the Automoblox has a universal connector system enabling a rapid interchange of parts, further accentuating the fun factor of creating different car styles.
UCP 01515	Blow Lotto 	Develop breathing control and lip strength while learning to pay attention and take turns.
UCP 00624	Kaleido-Dome with Shapes 	This fun toy enhances matching, grasping and releasing skills. As the user fits a shape on the base, a light is activated. When all twelve shapes are in place the large center dome lights up, music plays and pom-poms dance. <i>Note: plays music but the dome does not light up and pom-poms do not dance.</i>

UCP 00609	Bubble Busy Box with AM/FM Radio 	This box offers three stations: a vibrating plate, a pull ball that activates a removable fan, and a plate that activates an AM/FM radio.
UCP 00342	All that Glitters 	Even gentle pressure on one of the activity center's corners rewards the user with sensory delight. Enjoy dazzling vibration, lights, music, glitter and flying beads! This dynamic experience invigorates the user's auditory, visual and tactile senses.
UCP 02766	Flip Flop 	The user will feel vibration, see multicolored lights, colorful glitter & multi-colored beads spinning inside the dome, reflections, & hear six upbeat songs. Has two different on/off switches: one to control the music, the other to control the lights, vibration, & beads inside the domes. Terrific to use for increasing visual attention & providing tactile stimulation
UCP 02712	Old Mac Donald's Farm 	It's time to sing along and discover animal sounds and music. Each of the four brightly colored built-in adapted buttons make a different sound in one level and plays part of a familiar tune in the other.
UCP 02767	Wheels on the Bus 	The bus has two play modes-fun car sounds & four verses of "Wheels on the Bus." Four colored buttons make it easy to activate. Press the horn or the red button to hear the horn sound. Press the wheel or the black switch to start the bus.
UCP 02717	High Striker 	Strike the toy's gushy pad & lights track upward indicating the force of the user's strike & producing a corresponding sound effect. When struck with full force, the user is rewarded with rainbow lights, vibration, music & spinning glitter! Provides tactile, auditory and visual stimulation.
UCP 00512	Drop-in-a-Bucket 	Ideal for players with limited reach. Bucket has six multicolored lights that draw user's attention. Drop a shape into the container & a tune plays. Comes with interchangeable grids that teach object placement. A terrific toy for developing size & shape recognition.
UCP 02798	Dottie the Fine Motor Cow 	Dottie is ready for fine-motor fun! Build hand strength, twister grasp, and other fine motor skills. No pieces to lose – pop them in, pull them out.
UCP 00532	Elmo Sesame Street Piano 	User's can play their favorite tune on this multi-instrument sound board while also enjoying the voices of their favorite sesame street characters.
UCP 00550	Deluxe Folding Fan 	Folding fan that occupies little space and provides a big breeze. This fan is a great tool to cool off.

Their unique sling allows for snug and custom fit. They are ultra light weight for extended use.
UCP 01477	Apricot Jamz Modified Chip	<u>Elements of Music:</u> · Familiar musical selections revolving around jungle themes · Percussion and drums reinforce sound patterns <u>Clinical Applications:</u> · Sensory modulation · Promotion of bilateral integration, timing, and sequencing · Facilitation of auditory-motor integration, postural organization, and core activation
UCP 01458 UCP 02535	Grape Jamz Modified Chip	<u>Elements of Music:</u> · 2 percussionists, bass, guitar, piano, woodwinds · Basic familiar melodies with improvisation <u>Clinical Applications:</u> · Postural organization and core activation · Basic timing, Auditory-motor integration

UCP 01473 UCP 01474	Peach Jamz Modified Chip	<u>Elements of Music:</u> · Familiar children's songs · Gentle voice accompanied by piano, guitar and cello · Enhances body awareness and grounding for place in space <u>Clinical Applications:</u> · Sensory modulation difficulties · Opens windows for vocalizations, emotional tone, and connectedness
UCP 02538	Spanish Peach Jamz Modified	<u>Elements of Music:</u> - Familiar children's songs in Spanish - Gentle voice accompanied by piano, guitar, and cello - Piano provides structure - Time is clearly marked by guitar - Cello enhances body awareness and grounding for place in space - Simple melodic structure and rhythms <u>Clinical Applications:</u> - Sensory modulation difficulties - Opens windows for vocalizations, emotional tone, and connectedness - Promotion of body-voice connection with expression of physical "me". Facilitation of core activation.
UCP 01475 UCP 01476	Razzberry Jamz Modified Chip	<u>Elements of Music:</u> · Classic children's songs that appeal to a wide age range. Broad range of harmonics Shifting rhythms and jazzy improvisations <u>Clinical Applications:</u> · Encourages engagement and sensory modulation - Supports core movement patterns necessary for motor planning
UCP 01459 UCP 02539	Strawberry Jamz Modified Chip	<u>Elements of Music:</u> · Classic and contemporary children's songs · Voice accompanied by strings, piano, flute, woodwinds, percussion, and nature sounds · Attention and foster connection and communication <u>Clinical Applications:</u> · Core activation with emotional tone · Language/communication skills
UCP 01460	Surf Jamz Modified Chip	<u>Elements of Music:</u> · Surf genre music with guitars (electric, rhythm, acoustic), keyboard, drums <u>Clinical Applications:</u> · Sensory modulation · Refinement of timing and sequencing · Facilitation of postural organization and core activation · Good initial selection for teenager
UCP 01538	Bach for Modulation Modified Chip	<u>Elements of Music:</u> · Violin, cello, harpsichord, orchestra · Weaves between fast and slow tempos <u>Clinical Applications:</u> · Used later in a listening program when sensory modulation issues have improved · Refinement of postural, core and breath activation · Refinement of attention and receptive learning (i.e. spelling, vocabulary, facts)
UCP 01479 UCP 01480	Baroque for Modulation Modified Chip	<u>Elements of music:</u> · Chamber orchestra and flute <u>Clinical Applications:</u> · Postural, core and breath activation
UCP 01486 UCP 01467	Easy Listening Modified Chip	<u>Elements of Music:</u> · Soft familiar rhythms <u>Clinical Applications:</u> · Improves concentration · Regulates sleep patterns

UCP 02534	Links to Space Modified Chip	<u>Elements of Music:</u> Generic synthesized music Nature sounds and acoustic instruments enhance spatial qualities and perception Simple melodic structure Easy rhythmic structure <u>Clinical Applications:</u> Gentle introduction to the spatial surround Sensory modulation and over-responsive to low frequency sound sensitivities (vacuum, blender, lawn mower, etc.) Not focused or outwardly connected
UCP 01470 UCP 01472	Easy Space Modified Chip	<u>Elements of Music:</u> · Nature sounds and acoustic instruments enhance spatial qualities and perception · Easy rhythmic structure <u>Clinical Applications:</u> · Gentle introduction to the spatial surround · Sensory modulation and over-responsive to low frequency sound sensitivities (vacuum, blender, lawn mower, etc.)
UCP 01483 UCP 01484	Early Mozart Modified Chip	<u>Elements of Music:</u> · Mozart's earlier work, composed at age thirteen · Small orchestra <u>Clinical Applications:</u> · Sensory modulation difficulties · Improving overall regulation of arousal and mood · Increases social connectedness and reciprocity
UCP 02087 UCP 02102 UCP 01485	Mozart for Modulation Modified Chip	<u>Elements of Music</u> · Piano, Flute and Orchestra · Simple melodies weaved together in storyline-type structure · Instrumentation provides foreground (focal), while accompaniment provides background (ambient) <u>Clinical Applications</u> · Sensory modulation · Enhancement of language skills and social skills, especially in younger children · Auditory-figure ground modulation · Organization of motor skills
UCP 01466	More Mozart for Modulation Modified Chip	<u>Elements of Music:</u> · Featuring piano, violin, flute, harp and cello · Supports organized body movement · Invites attention outwards <u>Clinical Applications:</u> · Used late in listening program when sensory modulation issues have improved · Refinement of connection and social-turn taking
UCP 01464	Mozart Strings#1 Modified Chip	<u>Elements of Music:</u> · Three Mozart string quartets, two violins, viola and cello. Short melodic phrases <u>Clinical Applications:</u> Used late in a listening program when sensory modulation issues have improved. · Refinement of modulation, attention, academics and pragmatics

UCP 02541	Bach-Carulli for Fine Tuning	<u>Elements of Music:</u> Flute, guitar, violin, and piano Clear, strong rhythmic structure Simple melodic structure Elegant selections exhibiting Galant style 4000 Hz and below filtered out with sliding high pass filter <u>Clinical Applications:</u> Refinement of posture, auditory & visual attention
UCP 01481 UCP 01482	Nature Pop Modified Chip	<u>Elements of Music:</u> • Familiar music selections interwoven with nature sounds • Voice accompanied by strings, piano, flute, woodwinds, percussion and nature sounds • Very rhythmical <u>Clinical Applications:</u> • Poor spatial awareness and organization • Core activation & Sensory Modulation
UCP 02540	Nature Pop Spatially Enhanced Chip	<u>Elements of Music:</u> Familiar music selections with nature sounds Voice accompanied by strings, piano, flute, woodwinds, percussion, and nature sounds <u>Clinical Applications:</u> Poor spatial awareness and spatial organization Core activation with emotional tone
UCP 01465	Nature Winds Modified Chip	<u>Elements of Music:</u> • Varied rhythm of slow and lively dance movements • Uses thirteen wind instruments (clarinet, oboe, bassoon, double bass, basset horn) <u>Clinical Applications:</u> • Poor spatial awareness • Sustains attention and focus
UCP 02536	Nature Sounds Spatially Enhanced Chip	<u>Elements of Music:</u> Nature sounds only – no music Many sounds recorded in rain forests in remote regions in Australia Dense and fairly complex <u>Clinical Applications:</u> For those who need a strongly heightened spatial surround. Need for basic movement patterns necessary to orient outward
UCP 02537	Nature Classics Modified Chip	<u>Elements of Music:</u> This music selection has classical pieces from Bach and Carulli. Helps with organization, focus and structure The combinations are: Flute/Piano, Flute/Guitar, Violin/Flute/Guitar. The rhythms, and the tempos vary <u>Clinical Application:</u> Refinement of spatial awareness and spatial organization Difficulties with academic organization, motivation, and attention Refinement of postural organization and facilitating grounded attention outward due to the melodies that invite a focused attentiveness while keeping the space around you present
UCP 02533 UCP 02781	Links to Modulation Modified Chip	<u>Elements of Music:</u> · Clear, easy rhythms · Simple, straightforward melodic lines · Instrumentation ranges from electronic to simple and unlayered (flute, guitar, piano) · High contrast between high and low frequencies (foreground/background) <u>Clinical Applications:</u> · Sensory modulation difficulties · Hypersensitivity to sound, movement, and/or touch · Disruptions in homeostatic functions (sleep/wake, bowel/bladder, appetite cycles) · Stiffness in middle ear muscles due to ear infections · Great beginning if uncertain on where to start
